SUMMARY

Eager and innovative Software Developer passionate about solving real-world problems through technology. Skilled in both frontend and backend development, with hands-on experience using modern stacks such as Flutter, React, and Node.js. Possesses a strong foundation in Artificial Intelligence, leveraging AI-driven solutions to accelerate development, optimize processes, and deliver efficient, scalable applications. Known for adaptability, problem-solving, and a commitment to building impactful digital solutions that bridge business needs with technical excellence.

EXPERIENCE

Software Developer Intern - Lifewood Data Tecnology Jun 2025 - Jan 2026

- Applied core knowledge in software development, AI, and machine learning to design practical, real-world solutions.
- Built and deployed diverse applications, including chatbots, interactive web platforms, and AI-powered tools for user engagement and process improvement.
- Developed responsive frontend interfaces and reliable backend services, ensuring seamless functionality and secure data management.
- Collaborated in team-based projects and hackathons, contributing to rapid prototyping, innovation, and end-to-end application development (POS System).

PROJECTS

- Laundry Management System (Capstone Project):** Mobile-based booking platform for laundry delivery and pickup services.
- Chatbot AI API:** Conversational chatbot built using Python and AI API integration.
- Posture Coach:** Desktop application for AI-powered posture coaching, developed with ElectronJS and Google Teachable Machine.
- Survive The Nightshift:** Horror simulation game created in Unity, focused on immersive caretaker gameplay.
- LW Minimart (Hackathon Project):** Point-of-sale system designed and delivered within strict time constraints during Lifewood Hackathon.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Technology
Cebu Eastern College
2025 - 2026

ProWeaver Inc. PromptQuest
Sep 2025

Lifewood Software Developer Training
Jan 2026

SKILLS

Programming Language
Java, Python

Frontend
HTML, CSS, React, Flutter

Backend
Node.js, Firebase

Tools & Desktop Integration
Git, Tauri, Electron
